

Instructions for a Recorded Program File from the XDS Pro Receiver

You will need the IP Address of that receiver. You can get it from the front panel of the receiver by using the keypad and going to Setup > Network > LAN Address. Then browse to the address on a PC on your network:

Setup Network

LAN Address

10.10.19.160 (example)

Address	<input type="text" value="http://10.10.19.160/"/>
---------	---

After you enter the IP Address on your browser, you will see the receiver's log in screen:

Username:	<input type="text"/>
Password:	<input type="password"/>
<input type="button" value="Login"/>	

Login info:

Username: **tech**

Password: Use your Affiliate NMS (myxdsreceiver.westwoodone.com) password OR you can use the receiver's daily password (Setup > Serial # > PWD).

Once you are in the receiver's status screen, click on the **Programming** tab:

General	Programming	Content
----------------	--------------------	----------------

Once you are in the Programming area, click on the **Recordings** tab:

Programs	Recordings
-----------------	-------------------

Once you are in the Recordings area, you will see a list of all the recorded program content saved on the receiver:

Programs	Recordings

You can save any of the recorded files by using the "Right Click / Save As" method and saving them to a file on the PC. You can now use the saved files as you see fit.

NOTE: If your XDS receiver has DHCP enabled, the IP Address **WILL** change if the receiver is rebooted and will need to be retrieved again.

In the event of any problems or questions, please contact **Westwood One Technical Services**, 9AM – 7PM Eastern Time, Mon – Fri:
